Pick n Pay chatbot

Why did we use this chatbot?

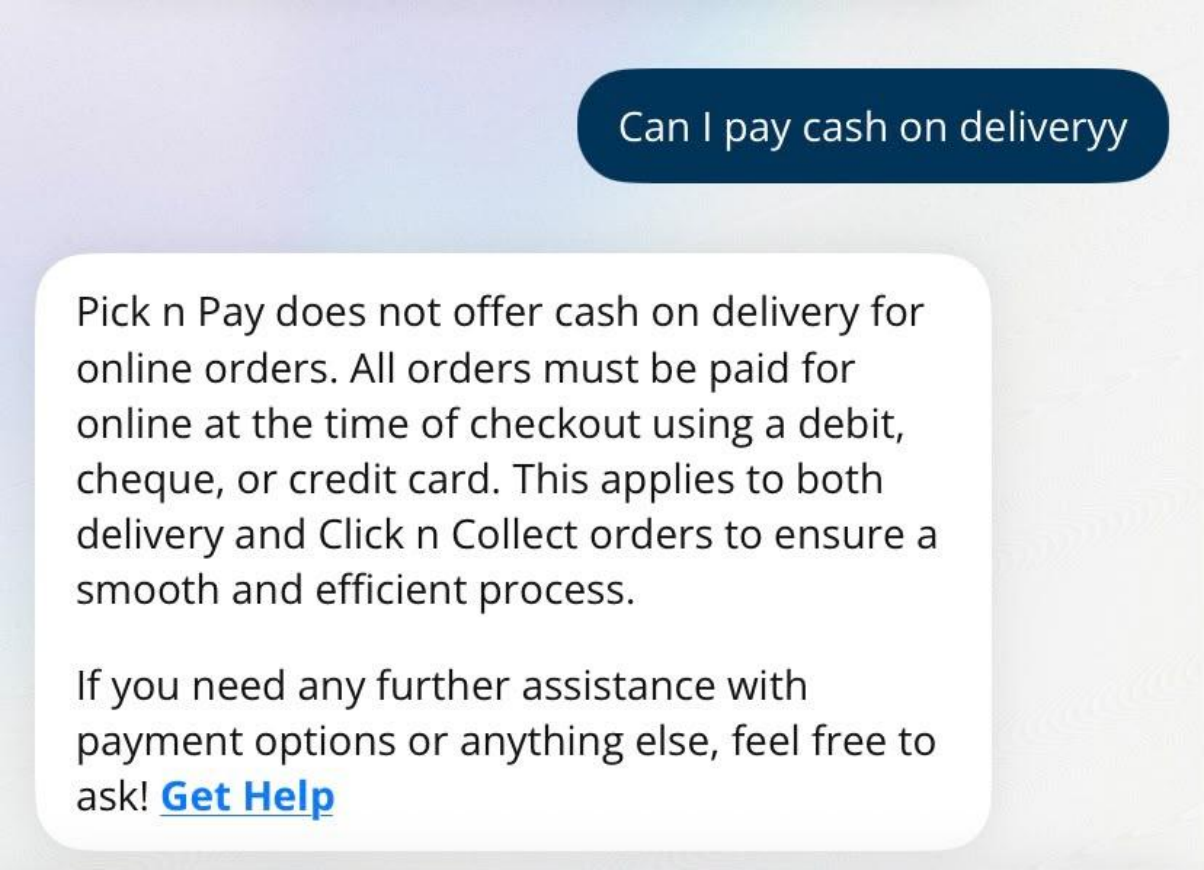

We used this chatbot as reference to our chatbot .We used to checked it's responses , it's style , its answers and it was easy to use sing its similar to our chatbot as the both help customers with questions they don't understand as our chatbots both assist with online shopping for retail stores

They both help costumer with tracking deliveries, with returns , warranty ,types of products sold in the store and what's in stock and their price.

Types of questions Asked from our chatbot

What are the questions asked on the pick and pay chatbot? And what are the resonses?

How long do I have toe to wait to return the shoes things or items

Pick n Pay's return timeframe depends on the type of item you've purchased:

- **General Items & Clothing:** Goods can typically be returned within **30 days** from the date of the invoice. Items must be in their original packaging and condition.
- **Appliances:** There is a **10-day cooling-off period** for appliances (like kettles or food processors) that are not working. If you return it within this window with your receipt, you can receive a refund or replacement. After 10 days, the item will need to be assessed further.
- **Damaged Goods:** If you receive damaged goods, you should return them to your nearest store as soon as possible for inspection and a potential refund or replacement.

For all returns, please remember to bring your proof of purchase (invoice or receipt). If you need further assistance with a specific order, you can reach out to the support team here: **Get Help**.

Order cancelatiom

You can cancel your order as long as it is still being prepared by the store and has not yet been invoiced or collected by the driver.

To cancel your order:
1. Go to your dashboard.
2. Click on **Track or Amend Order**.
3. If the order is still eligible for cancellation, click the three dots on the right and select **Cancel**.

If the order has already been invoiced or collected by the driver, it can no longer be cancelled. In this case, you would need to initiate a returns process once the order arrives. Please note that for returns, items must be in their original condition, and a reverse logistics fee may apply.

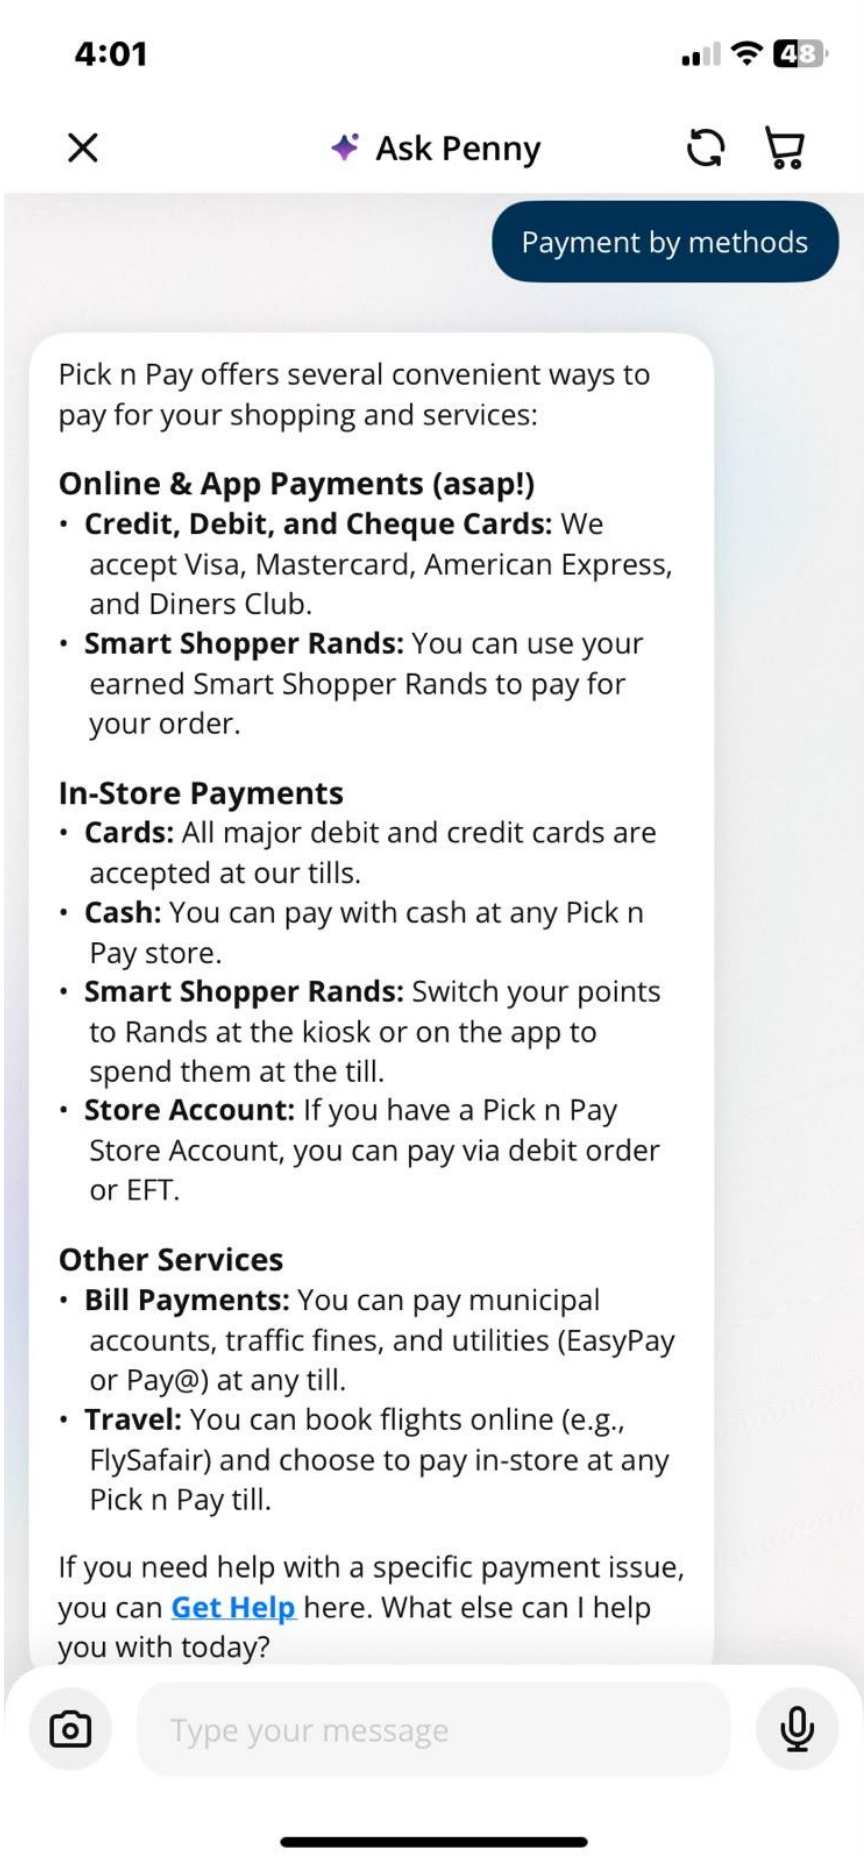

If you need further assistance with a specific order, you can reach out to our team here: **Get Help**

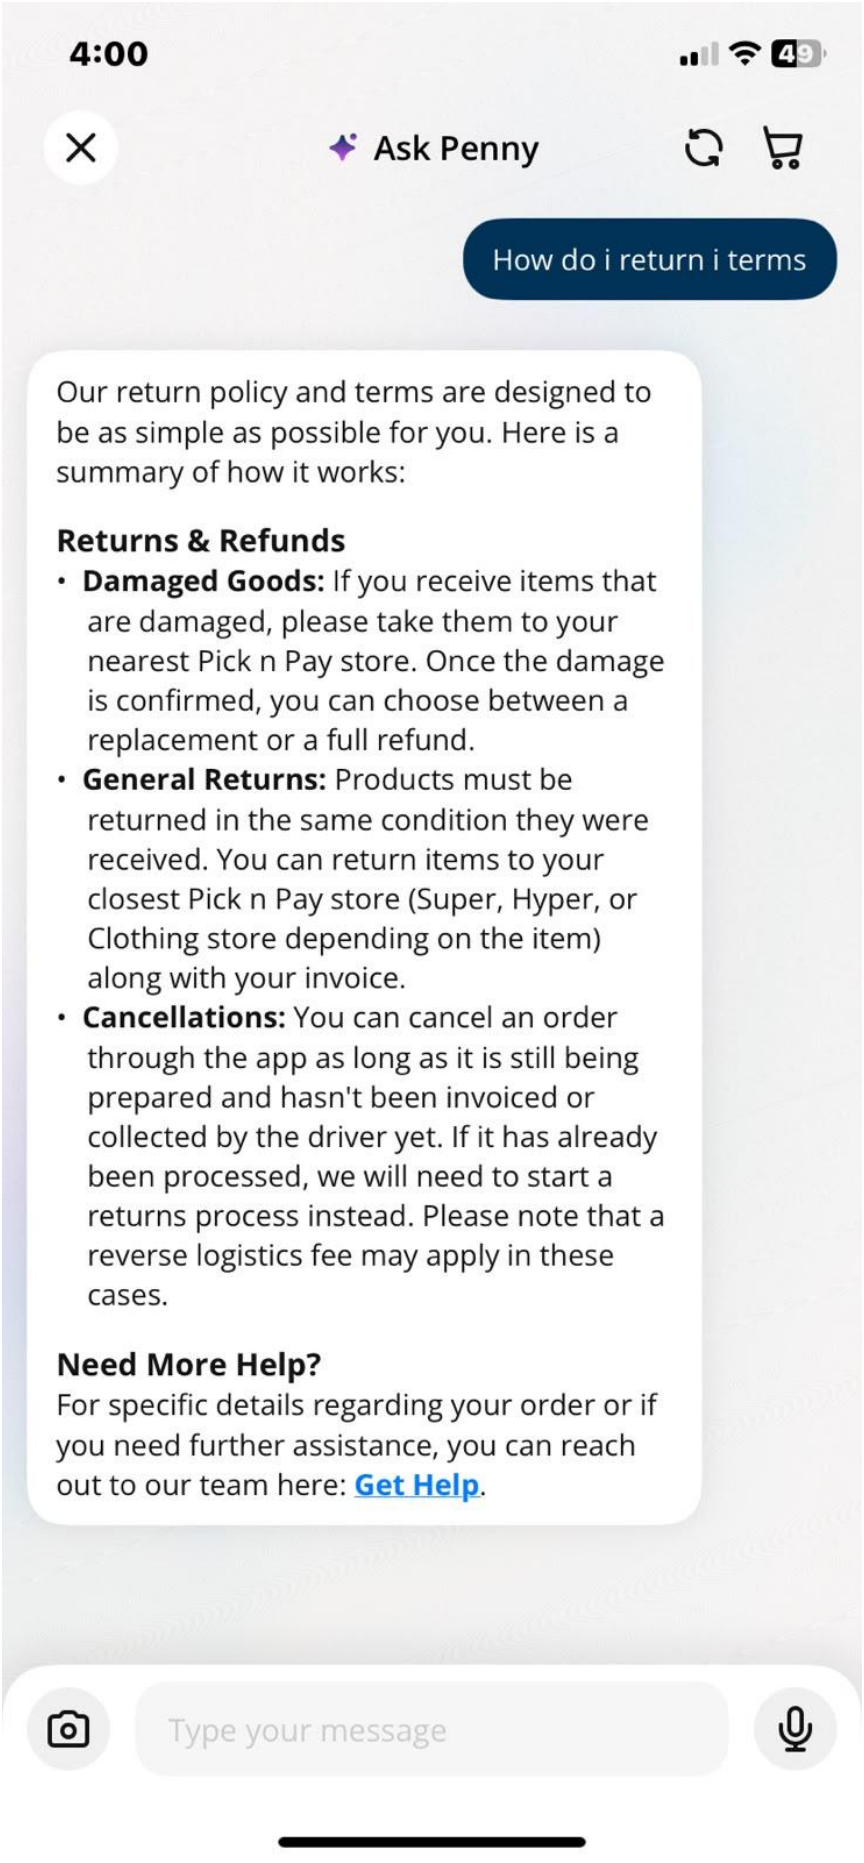

Is it safe o pay online

At Pick n Pay, your security is a top priority. Here is how we ensure your online payments and information stay safe:

- **Secure Encryption:** We use secure, encrypted payment systems to protect your debit and credit card information. This ensures that your details are handled safely for a reliable checkout experience every time.
- **Confidentiality:** All your information, including your digital wallet, is stored securely within the app to keep your data confidential and protected.
- **Payment Verification:** When you add a payment method, a small pre-authorization amount (like R1) may be taken to verify your account, which is immediately reversed.
- **Transparent Billing:** Before delivery, a reserve amount is processed to cover your order plus a small buffer for things like shopping bags or weight variations in fresh produce. You are only ever charged the final, exact cost of your invoiced items once picking is complete.

We accept debit, cheque, and credit cards for online orders. If you ever have specific concerns about an order or your account security, you can always **Get Help** through our customer support.

How do i return i terms
Our return policy and terms are designed to be as simple as possible for you. Here is a summary of how it works:
Returns & Refunds
• Damaged Goods: If you receive items that are damaged, please take them to your nearest Pick n Pay store. Once the damage is confirmed, you can choose between a replacement or a full refund.
• General Returns: Products must be returned in the same condition they were received. You can return items to your closest Pick n Pay store (Super, Hyper, or Clothing store depending on the item) along with your invoice.
• Cancellations: You can cancel an order through the app as long as it is still being prepared and hasn't been invoiced or collected by the driver yet. If it has already been processed, we will need to start a returns process instead. Please note that a reverse logistics fee may apply in these cases.
