START

DISPLAY the chatbot window with:

a chat area showing "Hi There, how can I help you"

a text box for the customer to type in

an ENTER button

an FAQs button

a "help us improve" button

END START

CREATE an Order object and set its order numbers:

ORD-1004, ORD-1060, ORD-2010, ORD-2011

CREATE a Prices object with prices 1099, 2099, 3100, 4100

READ the customer's message from the text box

SHOW the message in the chat area as "You: <message>"

CONVERT the message to lowercase and remove extra spaces

CLEAR the text box

IF the message is empty THEN

DISPLAY "You have not entered anything, please enter what you need help with"

ELSE IF the message mentions "cancel" THEN

DISPLAY the cancellation policy:

orders can be cancelled before shipping, not after,

and cancelled orders are refunded once processed

ELSE IF the message mentions "warranty" or "guarantee" THEN

DISPLAY the 12-month warranty information,

what it covers, and the contact number for claims

ELSE IF the message mentions "return" or "exchange" THEN

DISPLAY the return steps:

bring proof of payment, ID card and the unused item

to the nearest store within 14 days of delivery

ELSE IF the message mentions "contact", "human", "agent" or "call" THEN

DISPLAY the phone number and the weekday visiting hours

ELSE IF the message mentions "refund", "money back" or "transaction reversed" THEN

DISPLAY the refund process:

refund is allocated once the returns team processes the request,

customer is notified on approval,

and paid within three days of approval

ELSE IF the message mentions "pay" THEN

IF the message mentions "cash" THEN

DISPLAY that cash on delivery is not accepted

ELSE IF the message mentions "safe" or "secure" THEN

DISPLAY that online payments are processed securely

ELSE

DISPLAY the accepted payment methods (Credit, Debit, Visa, Mastercard)

END IF

ELSE IF the message mentions "deliver" or "shipping" THEN

DISPLAY the delivery process:

customer is notified when the order is packed and shipped,

and delivery usually costs R35

DISPLAY that the customer can say "track" to track an order

ELSE IF the message mentions "track" or "update" THEN

ASK the customer to enter their order number in a pop-up box

IF nothing was entered THEN

SHOW a pop-up message asking the customer to try again

ELSE

CLEAN the order number (uppercase, no extra spaces)

IF it matches any of the four stored order numbers THEN

DISPLAY that the order is confirmed and getting ready for shipping,

and the customer will be notified 2 days after shipment

ELSE

DISPLAY that the order number may be wrong and to try again

END IF

END IF

ELSE IF the message is exactly "okay", "thanks" or "thank you" THEN

DISPLAY a friendly reply asking how else the bot can help

ELSE IF the message mentions "search", "offer", "laptop", "price" or "stock" THEN

CREATE a Product object with Laptop A, B, C, D

CREATE a Stock object with quantities 9, 10, 11, 12

DISPLAY the list of 4 laptops, each with its

name, price and number available

ELSE IF the message mentions "faq" THEN

DISPLAY "Press the FAQs button to see the questions I can answer"

ELSE

DISPLAY that the bot can only help with refunds, delivery,

payments, returns and warranty

END IF

SHOW a pop-up listing the frequently asked questions:

returns and exchanges, return period, order cancellation,

stock and price, warranty, contact/human help,

payment methods, and the products and offers available

CLOSE the program
